MAN ON THE MOON

APOLLO — "IN THE BEGINNING . . ."

It was incredible dream come true! When the Apollo 11 astronauts landed their spidery Lunar Module on the surface of the moon, then, when Armstrong and Aldrin actually stepped out onto the lunar surface, one could almost hear the world catch its breath. At that moment one sensed the shadows of all the scientists, poets, writers and thinkers of the past who set the stage for this awesome event.

It was incredible, too, that we could sit at home and actually watch it happen. Over 600 million people all over the earth saw men walk on the moon and our world will never be the same again, for those hours we were ONE.

Man has always been an explorer, a discoverer, and a seeker of knowledge. Let us hope that the epic journey of Apollo 11 and future flights will help mankind eventually to find the true meaning of the purpose of life.

Perhaps a new era is dawning in which man will truly appreciate the fact of his life and being. **With Apollo 11 he has reached out from the cradle of the Earth, and man cannot stay in a cradle forever.**

PRINCIPAL'S MESSAGE

With the passing of another school year, grateful thanks go to all students and staff members who have contributed so much to the life of the school this year, the first of the 1970's. A special thanks go to the Editors of this Camosun, and to their staff, for this splendid publication.

At this time we think specially of you, our Grads, who leave us for other fields of endeavour. Our good wishes go with you.

"Go placidly amid the noise and haste, and remember what peace there may be in silence. As far as possible without surrender be on good terms with all persons. Speak your truth quietly and clearly, and listen to others... Enjoy your achievements as well as your plans. Keep interested in your own career, however humble; it is a real possession in the changing fortunes of time...."

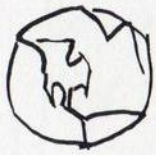
Moon

You
Who have looked at Earth
As from the vantage point of
God
And seen our old World
Spinning
On her never-ending course
Into sunset.
Have you caught a glimpse of
Things
Unknown of yet to come
Magnificent?
Or merely added just another
Cell
To a forgetful
Time Line?
For what is
Life
But just a score of Cells
Alone
Each Insignificant?

Debbie Mason



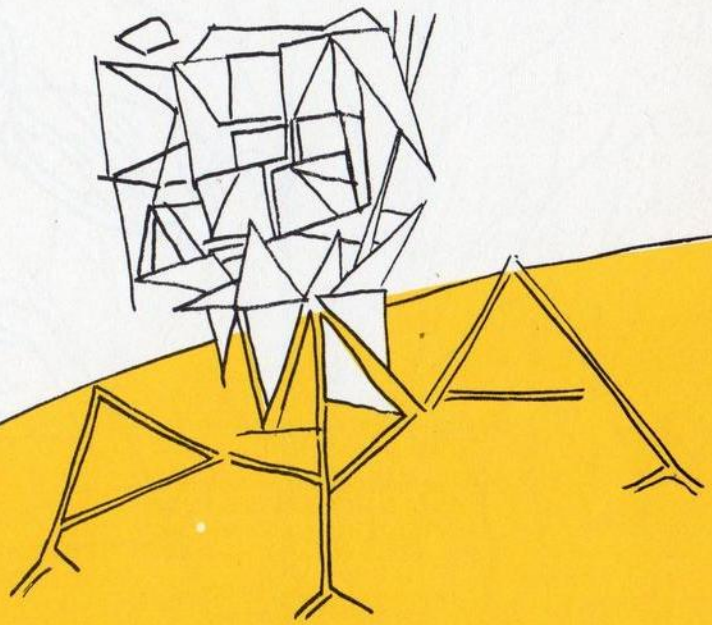
And I walked
Along the beaches of rust-coloured sand
Where waves of green
Met the sky of blue
and stayed.
Rocks jutted out
Leering in the fading light
laughing, waiting for
unwary ships to pass.

And I sat
on the rocks of cold grey stone
centuries told in their beaten
old, faces
Wrinkled with age.
Seagulls circled overhead
Crying out love's
Defiance to the wind
Which blew
Softly.

And I wondered
about questions that I could not answer
Or even begin to understand
The how and why
Of the world
And of living —
Of life.

So I walked
Along the beaches of rust-coloured sand
Where water and sky were one and the same.
I left my foot prints in the sand
Which the waves erased
With one easy motion of their hands.

Linda Checko



WHY?

While we want all to love,
We hate;
While we want equal rights,
We discriminate;
While we want to be wise,
We are fools;
While we want to be kind,
We are cruel;
While we want life to last,
We die;
We know all this is true,
But not why.

E.D.T.

THE NOTHING PEOPLE

I walked into the room (It was full of people)
And saw
Nothing
The people were there,
But they were only forms — —
Which sat in silences, not moving
except;
Maybe to breathe (which undoubtedly was
ironic for they seemed not
to have any life in them.)
I may stay there for any length of time
And then I'll leave
(this nothing room and its people)
And be no wiser — —
And it bothers me for
Those in the room;
are content
To sit in silences — not moving.

Mike Harney

IF

If you can bring life from death
With sad delighted dreams
You can make happy what sadness seems
To have taken forever, my friend

If in a stranger you find a friend
And in a friend you find a life
your joys of living will never end
And you will be loved, my friend.

If you see a world in a flower
And eternity in the sea,
You're wise and blessed with the power
Of love and living, my friend.

If you can make a world of your own,
With just a square of land,
Your seeds of life will always be sown;
And you'll continue forever, my friend.

If you can do all of these things,
You're what I want to be.
For I am lost behind the strings
Of the puppet who is me

Susan Loraas

WINTER MORNING

Fallen leaves of dirty brown,
Chill, frosty air and cloudy sky.
Opaque blues and greyish clouds
Mingle with grey-white smoke.
Bare trees, black against pale sunlight.
Streets of dull, ancient buildings:
Pealing brown paint, grime coated windows.
Thin cold antennas, rigid metallic snakes,
glinting silver.
Shabby people hurrying past, dreaming of secure warmth.

Marion Woloschuk

THE LONELY ROBIN

From the peak of the antique tower,
Lonely Robin, to the mountains
Singing you go until the day does not die;
And the harmony wanders in the valley.
Spring all around
Sparkles in the air, and by the fields exults,
So that admiring it, the heart swells,
Hear lowing of cattle, baaing of sheep;
And other birds gay in a race together
In the clear sky do a thousand turns
So celebrating their best time;
You, thoughtful, from there all observe;
Don't accompany, don't fly,
Doesn't warm your heart, detest the fun;
You sing and so let pass
Of the year of your life; the most beautiful age.

THE TORTURED SOUL

Oh, don't be surprised at my unhappiness!
And don't ask me:
I would not know what to say but words so vain,
My God, so vain,
That would make me cry as if I were about to die.
My tears would have the air
Of eating a rosary of unhappiness
In front of my soul seven times sorry;
But I would not be a poet,
But simply a sweet thoughtful garcon
That would have the praying feeling, so, as he
sings or as he sleeps.

O SWALLOW

O swallow that flies by the sea,
come back, listen to me;
give me a feather from your beautiful wings
to write a letter to my Love.
When written and well done I shall have it —
back to you I'll give the feather and your flight.
When written and beautifully done I shall have it
I'll give to you the feather, O swallow.

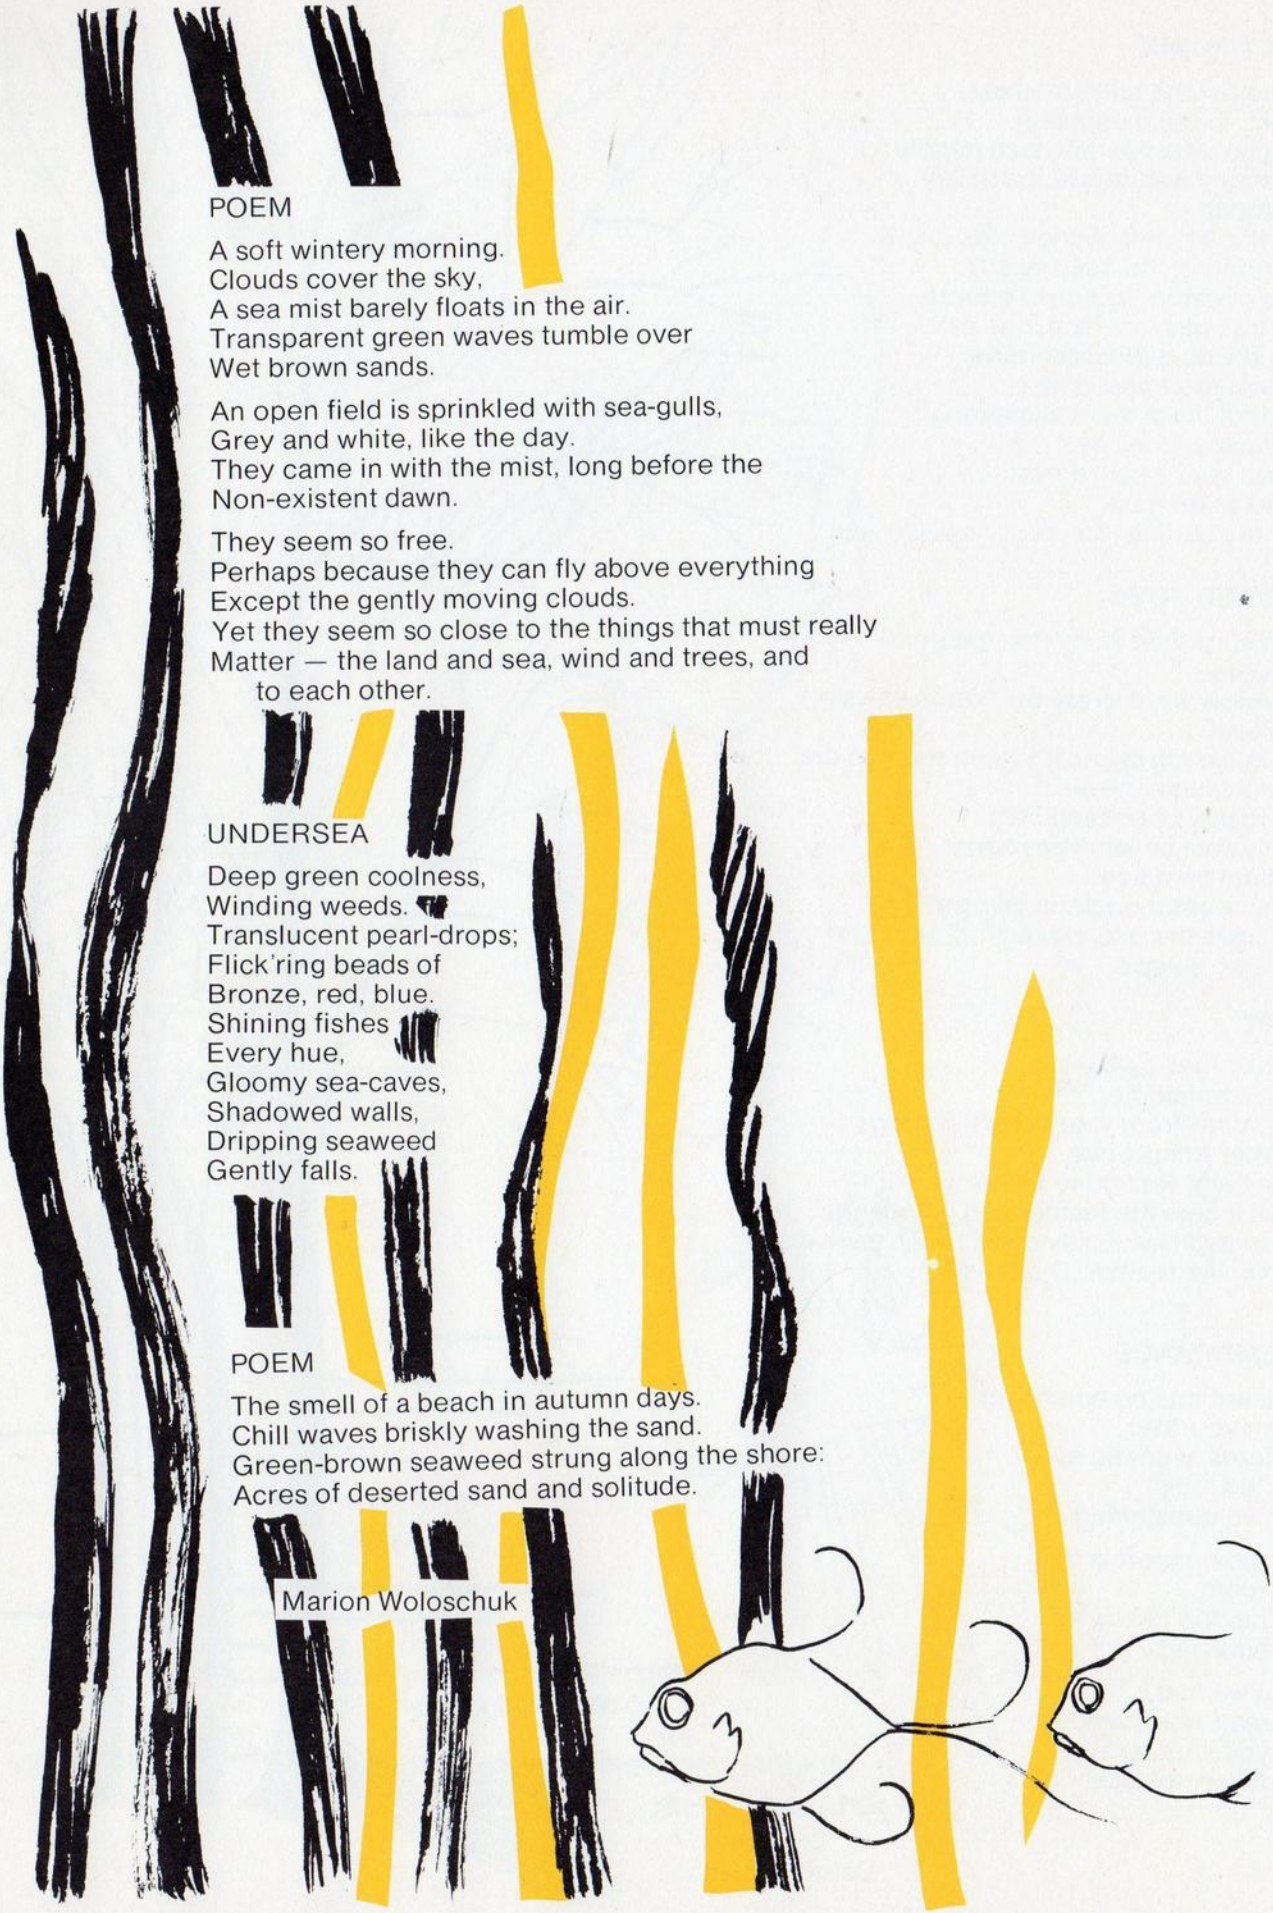
THE REMEMBRANCE

The life you left and no one heard
A noise from you. We,
Small creatures, with red eyes
And distracted looks
The doctor we questioned.

Alone, with no comfort in that
Large cold room
Absorbed into the obscurity
Alone we remained.

Faith in you we had,
Helpless creatures, but you,
Your eyes you shut taking
The immortal semblance.

Carolina Bianco



POEM

A soft wintery morning.
Clouds cover the sky,
A sea mist barely floats in the air.
Transparent green waves tumble over
Wet brown sands.

An open field is sprinkled with sea-gulls,
Grey and white, like the day.
They came in with the mist, long before the
Non-existent dawn.

They seem so free.
Perhaps because they can fly above everything
Except the gently moving clouds.
Yet they seem so close to the things that must really
Matter — the land and sea, wind and trees, and
to each other.

UNDERSEA

Deep green coolness,
Winding weeds.
Translucent pearl-drops;
Flick'ring beads of
Bronze, red, blue.
Shining fishes
Every hue,
Gloomy sea-caves,
Shadowed walls,
Dripping seaweed
Gently falls.

POEM

The smell of a beach in autumn days.
Chill waves briskly washing the sand.
Green-brown seaweed strung along the shore:
Acres of deserted sand and solitude.

Marion Woloschuk

CAN THIS BE US?

Silence. Almost complete silence. But not quite. There's a crow. He looks busy. Perhaps he has found the remains of the rabbit that the eagle from across the lake killed yesterday. Or perhaps it is the bear cub who scared away the eagle from the rabbit carcass. I wonder what would have happened if that cat hadn't come along. He's probably across the river now, licking his wounds from the mother bear. Everything is quiet again. The fish in the lake are content, unconcerned about the otter at the other end of the lake. That was yesterday.

Today, noise. Shattering the by-gone silence. Huge bulldozers roar while they push down trees, trees that have witnessed Mother Nature's peace, trees that now watch, in their dying moments, Mother Nature's destruction. The crow has flown elsewhere, to one of the last of Mother Nature's beauty spots. The bear, no longer a cub, has moved away. The cat, once a lord of the forest, now decorates an Italian cook's den wall. The fish have all gone, poisoned by the water, or yanked out by the hundreds by the creatures who make the noise. No longer are there any moles or marmots. No longer is there silence. This noise, this smell, this great achievement of homo sapiens, the great civilization of mankind, the great mistake, is reaping what it has sown. Destruction!

Lyle Gustafson

Time — as endless as the coming of dawn
Sun which never ceases to beat
On the age worn earth
Earth, where still lie deep and
unsolved mysteries.
Feeding its millions as much as possible
But there's more —
None could be accomplished without
Man — however his character.
And for centuries more will man
Continue to discover and produce
Until all mysteries are absolved

Diane Unger

THE JET SET

It was Thursday night and all the Boy Scouts, including myself, were gathered together at the church. The church was the usual meeting place for the Boy Scouts. The directors were all in a panic, running this way and that, trying to get everything under control. They finally got us in four neat rows of six. We were told of cars waiting for us outside. They were driven by helpful and patient parents of some of the boys in the troop. We were told to go out to the cars, row by row for the sake of organization. Naturally, being very excited, we all jumped up and tore for the cars. Within the instant, we were being crammed into cars. With doors locked and noise toned down to a bearable volume, we were whisked to the airport.

The airport was big with huge windows and long tiled corridors. We could hardly wait to get out of the cars and explore this gigantic mystery. We thanked the drivers politely, as all Boy Scouts do, and scrambled out of the cars. The directors, knowing our curiosities, quickly herded us onto a runway, where a fantastic jet appeared. It had just finished re-fueling and was ready to come screaming off the runway to make like a bird.

We climbed up the metal steps and were seated by the directors. We didn't miss the stewardesses, besides, we were too young to really appreciate them. The captain welcomed us aboard and signalled us to fasten our seat belts.

The engines were started, and a low whine quickly became a high-pitched scream. We taxied down the runway, and then the jet bolted forward for the take-off. I was pressed firmly against the seat back, and my stomach touched my backbone. When I looked out of my window the runway was just a thin line in a meadow and all of the buildings looked like doll houses.

We circled around the city once and saw everything from a bird's eye point of view. Man, what a trip! Then we started to circle the airport to come down. As we came down, I could hear the screech of rubber, and see the trail of smoke as the wheels adjusted to the airstrip once again. The pilot brought the plane around to the terminal and braked her where she rolled. "Whew! Let's do it again!!"

Phil Ormond

SEA-SHELL: A CHRONICLE OF HOPE

Threatening words, clashing voices, they became quickly frightening — they stole the blood from her cheeks, imparted a chill. She stared at the group of arguing strangers.

"The brutality of man..." "...pollution, destruction..." "...hate and war..." "Mankind has no future — we'll be annihilated within the century." "No hope."

These words meant nothing to her but horridness and ugliness and fear. They didn't know what they were saying — they couldn't. Things weren't like that. She tried to remember the stirrings of the crimson maple leaves in a warm breeze, or the hazy autumn mists that could transform their street into a mystic wonderland. But her heart pounded and she could see only a stark, clear vision of barren, echoing streets, blank windows; of skeletons of skyscrapers stretching to the fiery sky in hideous supplication; of blackened bones scattered in the dust.

"But it's not like that, no. Man won't do this thing; we're not like that! Man will save himself — hasn't he always?" Her voice was strange.

"You don't understand." The soft words might have been doves descending unawares into a nest of hawks.

"Yeah," a voice mocked. "The White Knight rides again." Eyes pierced her skull. She was scared by the ugly tone and the truth it implied. She was scared and wrong, a fool. Her voice froze. Turning abruptly, she walked off.

. . . .

The pavement was slimy with moisture; beads of water stood on the cold, green-painted railing. Below, the boulder-studded dike curved to the narrow stretch of grimy sand and broken shell, and beyond that, the heaving sea, a sickly grey-green reflecting the turbid sky. It was dirty, but it did not jar on her soul. The icy mist which turned the hair on her neck to clammy strings harmonized well with her grey mood. Grey. Not black, nor even blue, but the grey of numbed feeling, the tired emptiness of her mind. Slowly she climbed down the stone steps to the beach.

Memory cut her suddenly. She felt acutely embarrassed, as if she had allowed some tender part of her to appear naked before that threatening crowd of sudden strangers. It was the pain of the introvert who fears he has ventured too far out of his shell. She stumbled on the last step, grazing her ankle. The pain of the superficial scrape cleared her head. She became aware of the deeper wound, the dull ache caused by her father's words that morning.

"Shut-up and listen to me! I've lived for sixty years and I'm still learning what a mess this world is. You kids don't know anything about anything. You know **nothing!**"

In her hurt she had forgotten about the sick, old and disillusioned man who stood before her, and desperately fought for a scrap of dignity. She had retorted childishly and he had yelled at her, "You bloody fool!" She'd heard it so many times she believed it. She felt like a blob of jelly floating around without a foothold. Was there no beauty, no good, nothing of any worth in the whole crazy world? She gazed through tangled hair at the horizon.

The clouds were thinning and revealed the lights of sunset. It was very dreamy far off in the distance, where the rays of the dying sun diffused through the mist in a pale opalescence of pink and gold. They touched the water with little shimmering bits of pinkish silver that formed a fairy causeway to the glowing sun. She wished she was a soft-feathered gull gliding over the pearly clouds, higher and higher. It was so beautiful, and so impossible. Tears rose in her eyes.

The muddy sand sucked at her sneakers and shells crunched. Slipping on a slime-coated rock, she fell to her knees on a damp, crumbling log. Blood rushed to her face. She was angry, angry because she could not reach that dream-like beauty, angry at the horrible, ugly world that claimed her. The sea lapping the jagged boulders was green and oily, and flowed with seaweed. She imagined the swirling waters closing over her head forever.

Then from a shadow dip in the sand a silver glimmer caught her eye. She reached in the pebbles until she held in her hand a tiny shell. Its outer spirals were barnacled and coated with muck; yet it had a strange beauty for its interior was silky smooth, and as delicately coloured. As she turned it in the light it sparkled with life. How wonderful that this dirt-encrusted thing could mirror and reflect all the glorious tints and hues of the now fading sunset! She clutched the shell and smiled sadly. Tears ran coolingly over her hot cheeks, then, as her gaze slipped along the shore, she saw before her the point where the dark, shadowy beach met the golden pathway to the sun.

THE CHOIR

Almost every school has a choir or Glee Club. Victoria High School is no exception. We may be small, but we enjoy singing.

At Christmas time we gave a concert at the Glenwarren Hospital. The patients and nurses made us feel at home. The consensus of the choir members was that we enjoyed ourselves and we sincerely hope that the patients enjoyed us.

Recently we auditioned for the forthcoming Variety Show and were successful in being allowed to sing in the Concert.

Our President, Susan Brown, and our Vice-President, Gerry Ratchford, wish the future choirs the best of luck and hope they will be as successful as ours.

Calamity Players got off to rather a slow start this year due to the absence of our "Mayne" source of inspiration and fortitude, fearless leader Mayne. We made a splash early in the year with our anti-pollution propaganda, waited during an indolent interval, and then managed to re-establish ourselves with the successful "Spirit of Al Kaboom". Calamity '70 wishes Calamity to come a bright and successful future.

Two community projects included a Christmas Party for children at Queen Alexandra's Solarium and a trip to the Jay Cee Fair for some welfare children. Two visits to Camp Thunderbird and a Y-Teen Camp Conference at Warm Beach, Washington were the main field trips. Many thanks is extended to their enthusiastic advisor, Miss Lee Hunt.

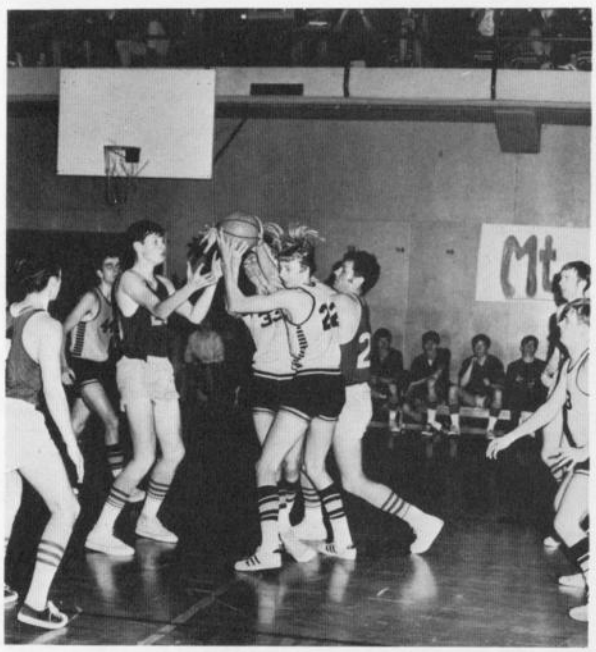
TOTEMS — 1970

The Totems were mostly grade elevens this year. They placed second in the Island Tournament by beating Oak Bay, but losing to Mt. Doug by one point. The Totems went to the B.C.'s. Although they didn't win, they played hard and gave their best. We know the team next year, with this year's experience, will be sure to be B.C. Champs.

The "B" Team, under the brilliant guidance of Mr. Martin Lund, managed to pull off a second place in the Juvenile Boys' Commercial League and we had a laugh doing it. Seeing Oak Bay was the only other school with a "B" Team, we had no competition in the Interschool "B" Basketball League and we managed to retain the "B" Trophy unchallenged. All in all the Teepees had a successful year, destroying the honourable game of basketball completely. Many thanks to Mr. Lund and the huge crowds of spectators that turned out to cheer us on to victory?



Back Row: Mr. Valdal, Jim Nemec, Ian Scott, Hans de Goede, Brian Dunn, Al Martyn, Pete Grabowski.

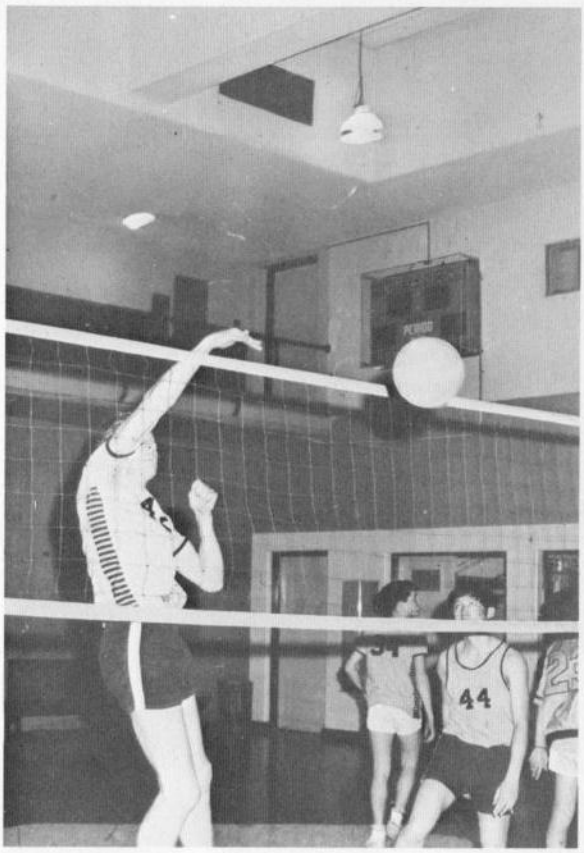
TOMAHAWKS

The Girls' grass-hockey team did very well this year. With high spirit and great enthusiasm they placed in the top of the school league. Congratulations to the Tomahawks '69 and best of luck to next year's team.



TSASQUATCHES

The team has done very well this year. They played hard in league play and won the Island Tournament qualifying them to play in the B.C.'s. As well as league play they helped to officiate at many school tournaments.

Back Row: 42 Jack Thame, 33 Kenson Quon, 24 Athan Georgiades, — Mike Costello, 5 Alex MacKeachie, 32 Ajmare Sundhur, — Jim Williams.
Front Row: 35 Don Wilson, — Cal Hauk, 44 Waimen Lee, — Kris Bilinski, 45 Grant Price.

TITANS —

"A" RUGBY

Top Row (L to R): Bruce Neil, Doug Pletsch, Ken Hickman, Ian Hood, Ron McInnes, Mike Waberski, Pete Salmon, Al Palmer, Bert Bertillia, Kelvin Chow.

Bottom Row: Keith Peters, Dimas Caverio, Tom Lippa, Rod Quin, Rudy Bianco, Tony Croucher, Don Larsen.

Under the hard driving Mr. Briggs, the smaller Titans did very well in their own city league and at the close of the season they ALMOST made it to Vancouver to play an exhibition game, but the PLAYERS were left sitting on the dock at Swartz Bay.

Because of Mr. Briggs capable coaching, the '70 Titans came very close to snapping up the Howard Russell Cup. They lost out only when they took on the bigger, more experienced, Claremont Spartans, and placed 2nd in the city league. This year's Titans were comprised of mostly grade 11 players so next year's team shows great potential.

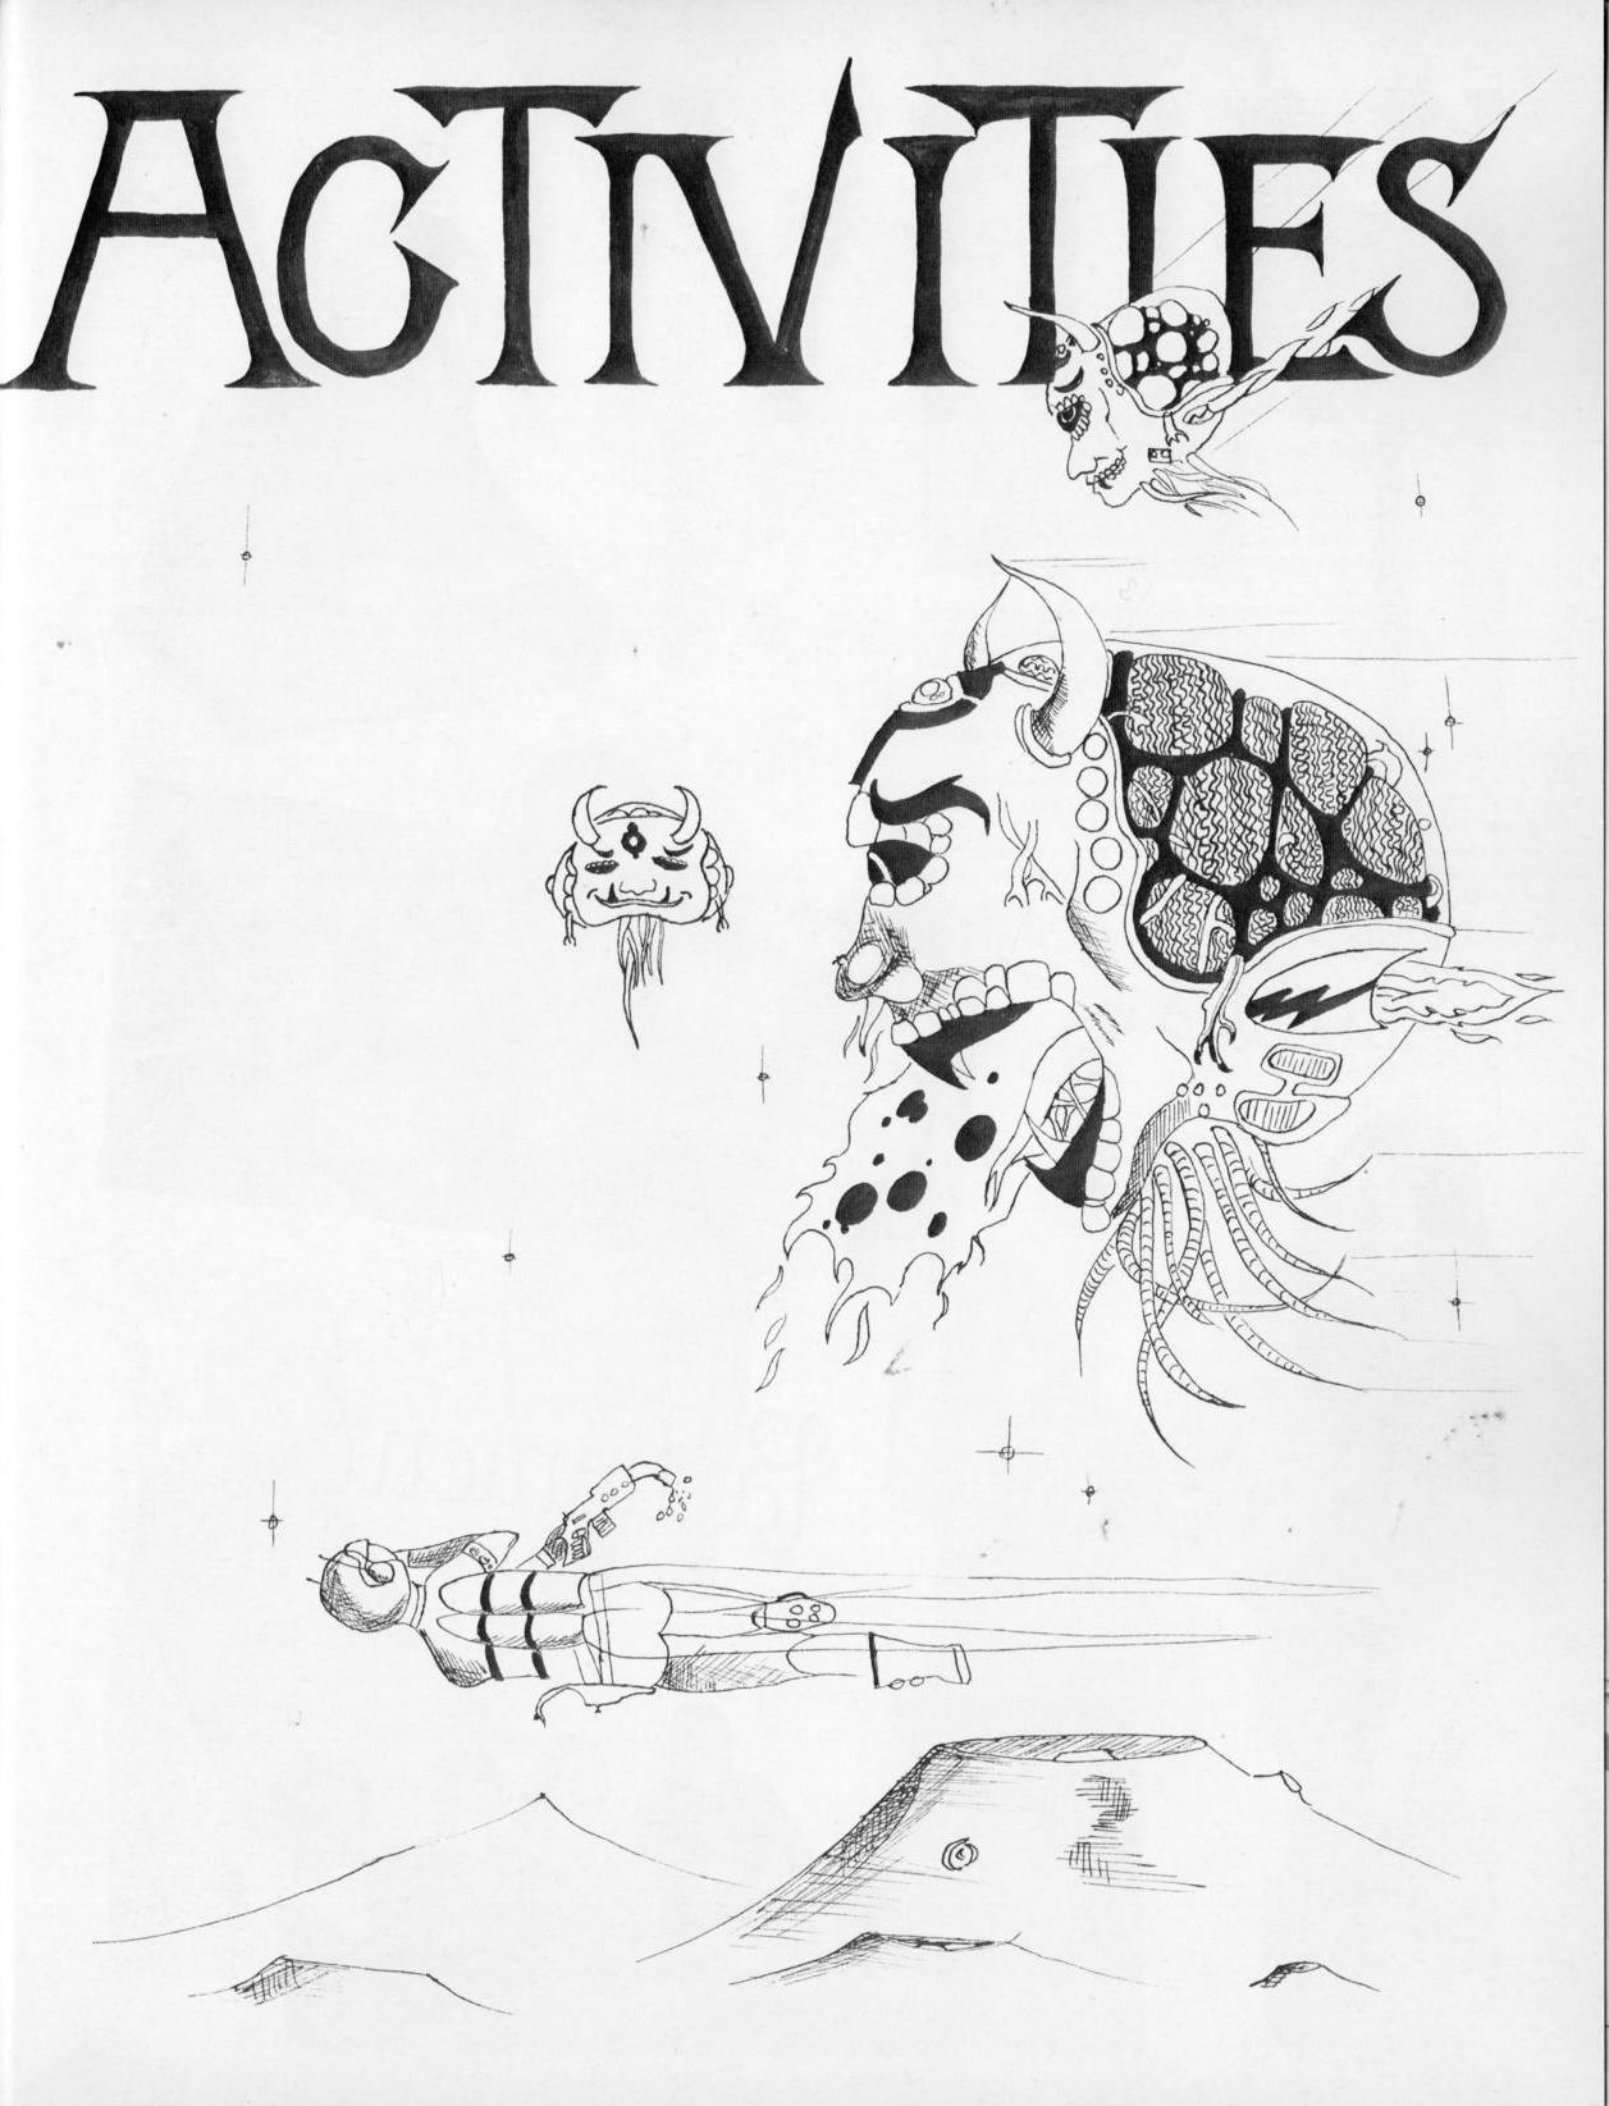
TIMERS MANAGERS

This group of people get little recognition during the school year. Without them many of our sport's activities would be stopped. A special thanks is whole-heartedly given.

Gwen Olds Sheril Lewis Sue Brown

The task of a timer is not an easy one. We must time, score-keep, watch the games and the refs. While doing this we have to remain completely impartial.

ACTIVITIES



PRIME MINISTER'S MESSAGE

A school year can be only what you choose to make of it. Aside from providing ten months of classroom education, school offers the opportunity of social realization. But the opportunity must be met as a challenge that the individual is free to accept or refuse.

Student government has two means of bringing this opportunity into light. It can either originate social agenda or act as a liaison between staff and students and let the individual realize his own. This year we chose the latter and directed most of our efforts at constructing a two-way communication bridge with the staff. The policy changes initiated in the New Year indicate the merit of such endeavour.

For me the year was full of challenges — in some I won: in others I lost. But admitting defeat is as much a part of the reward as accepting the victory.

The year is over now and another chapter of the book is completed — not an outstanding chapter, only one on which others can be built.

Read how SNAP facial cleansing, helped this girl correct pimples and blackheads.

An Ontario girl writes: "when I was in my late teens, I was plagued with pimples and blackheads, and my mother spent a small fortune trying to correct them — unsuccessfully. A girl friend suggested a twice-a-week facial cleansing with SNAP. I am over 30 now, and receive many compliments on my skin. No blemishes, and oddly enough, no lines."

Another girl writes: "SNAP makes a wonderful facial cleanser for teenagers with a skin problem, and women who want an inexpensive skin cleansing treatment which can be done at home."

We constantly receive letters like these, telling us how SNAP cleans the skin, stimulates the circulation and helps improve the complexion.

VALEDICTORIA — 1970

KENT MUNDY

Highlights of the Valedictory address:

. . . . We seem to take everything for granted. We don't realize how fortunate all of us are tonight to bring together so many proud parents who have given or will give some advice for the future which will improve our own understanding.

. . . . But what about today, sleep-walking through the school, being late for home-room, taking out your tensions on your school work, then calming down again. You then get a poor mark on a test, and kick the living daylights out of a beautifully composed locker. How about all the times you skipped out of class, impressed the opposite sex during the ice-cream demolishing time known as Study period. Remember the times you had to satisfy the nicotine urges outside or re-enacting a Saturday matinee in the cafeteria complete with sound effects, line-ups, and little interest in what you are down there for. Hundreds of laughs are almost at an end.

. . . . We must now find peace in ourselves and accept it. Some people find peace and others don't because they try too hard. Whatever the future holds, I hope that you will find peace and be happily rewarded.
